

# Cityscape Bench

Model Number

CSB-6

The intention of this series was specifically to create something modern and architectural; hence the name Cityscape. This bench has a very fluid look, and almost appears to be in motion or "on the move". The cantilevered portion creates an interesting sense of balance as the wide seat extends out almost like a diving board. A partial back rest allows for more ways for the user to sit, and provides flexibility in terms of how to orient and install the bench in its environment. The pedestal section that supports the seating surface can be customized in several innovative ways. This area can be left using the standard metal plate, completely empty as a "breezeway", or can be used to house any number of materials.

## Material Specifications

Marine Grade Aluminum Frame  
Stainless Steel Hardware  
Super Durable Powder Coating  
100% Recycled Plastic Slats  
Western Red Cedar  
Modified Pine

## Recycled Content

Recycled Content by Weight: 36%  
100% Recyclable

## Customized Solutions

Custom Powder Coating (Setup Charges May Apply)  
On Site Installation of Brick or Stone in Base to Match Building Exterior  
Skate Blocks  
INST- 3.75 Stainless Steel Concrete Wedge Anchor Bolt Down Kit
