

# Larson Picnic Table

Model Number

LPT-6

Versatile and highly customizable depending on the application, this model was created to match the popular Larson Park Bench. Design improvements such as bull-nosed boards on edges, capping on all the ends for a finished look, and minimal board gapping to prevent debris build up are all present on the Larson Picnic Table. The leg supports are intentionally recessed to increase overall accessibility and ease of use. Because the seat sections are not attached to the table section, a wide variety of seating options are available (see Product Gallery photos). For example, a creative configuration makes use of two short benches with a space in between for 'inclusive' wheelchair accessibility. Available in lengths from 4 to 6 feet.

## Material Specifications

Marine Grade Aluminum Frame  
 Stainless Steel Hardware  
 Super Durable Powder Coating  
 100% Recycled Plastic Slats  
 Western Red Cedar  
 Modified Pine

## Recycled Content

Recycled Content by Weight: 68%  
 100% Recyclable
