Re-plast Lumber  
Thickness : 1 7/16 inches / 38 mm  
Depth : 3 3/8 inches / 86 mm  
Weight : 2 lbs/ft 3.2 kg/meter

## RECYCLED CONTENT

**86% RECYCLED CONTENT BY WEIGHT**  
**100% RECYCLABLE**

## DESIGNER NOTES

This tried and true design has been requested time and time again for applications where customers are looking for a low maintenance and sterile option for wood and steel. Primarily used in washroom and change room environments, it's simple design works great however small or large the seating capacity that's required. Determining what is required for every application is simple. The number of supports (SWB-14A) is determined by the total length of the seating surface minus 4" overhang on each end and then dividing up the difference to maximum span distances of 20". For example, a 72" bench would have 4 supports 16" apart from each other. A 60" bench would have 3 supports 17" apart from each other. A 48" bench would have 3 supports 20" apart from each other. The recycled plastic lumber comes in 3 lengths: 6ft, 10ft and 12ft. The seating surface utilizes 4- 2 x 4 boards giving a comfortable 14" seating depth. Note that there is an optional bullnose board for the leading edge making the seating even more comfortable.

## AVAILABLE RECYCLED PLASTIC LUMBER COLOURS

100% Canadian Made

Wishbone Ltd. provides an extended 10 year limited warranty from the date of invoice.
