

## LUMBER COLOURS

### 100% RECYCLED PLASTIC LUMBER COLOURS

Wishbone recycled plastic boards are non-toxic, ultra-durable and low maintenance. They are easy to clean and can be renewed from UV damage. They are an excellent material for the demands of outdoor commercial furniture.

### UNSTAINED NATURAL WOOD ALTERNATIVES

For applications where wood is preferred, Wishbone has several options. **Stains specified by the customer can optionally be applied by Wishbone during manufacture.** Contact us for further details.

MODIFIED PINE  
NATURAL

MODIFIED PINE  
GREY

Our Modified Pine is based on a proprietary process that transforms fast-growing, certified sustainable timber into a high performing lumber with superior hardness and durability characteristics. It comes with a 50 year rot resistance warranty.

RED CEDAR

Western Red Cedar is sourced from British Columbia and has excellent natural resistance to rot and decay. While softer than hardwoods, its superior durability, aesthetic beauty and dimensional stability make it an excellent choice for outdoor use, even without chemical treatment.

IPE

Ipe (pronounced "ee-pay") is a beautiful and extremely hard wood from South America. Our Ipe is harvested from sustainable forests and naturally resists rot, decay, insects and mold without the use of toxic chemicals.
